NOTES

• The prices for Baredine Cave and Traktor Story are charged in **Euro** and **VAT** is included.

• To agencies and tour organizers, we recommend **prior announcement** of the group at least 3 days in advance and an agreement regarding the time of the tour.

• Due to the organization of the tours, we ask that the group gather in front of the reception of Baredine cave at least 10 minutes before the tour in order to ensure entry at the agreed time. In case of delay, it is necessary to contact us by phone in order to be able to arrange the next available time for the visit.

• Groups or travel organizers have a common right to a free entry for a guide/accompanying person and teachers. The free service is not transferable.

BAREDINE CAVE

Baredine JAMA-GROTTA

The cave is geomorphologic monument of nature since 1986, and it has been opened for visitors since 1995. It is situated in the western part of Istria between the towns of Porec (8km), Višnjan (5km) and Tar (5km). The depth of the cave is 132 meters with underground lakes whose depth sometimes reaches up to thirty meters.

Arrival:

by car
Highway A9 Trieste – Pula; exit 4 (Višnjan /Porec-sjever); continue in direction Porec 5 km, in Nova Vas turn to Baredine cave
GPS position: **45°16'16.3"N – 13°39'59.5"E**

by bus
E-city bus - regular line Poreč - Nova Vas; get off at the station in Nova Vasaand continue on foot for 1 km to the cave.
Schedule at: https://www.myporec.com/en/travel-planning/transport/875

by bike or foot
Baredine cave is located near the popular cycling - hiking trail Parenzana
More info at: *www.parenzana.net* and *www.istra.hr*

The sightseeing lasts **40 minutes**; visitors descend along a **300m long pathway** up to **60m below the ground** and an underground lake and visit 5 beautifully decorated chambers.
Tours start every 30 minutes with a **guide** (included in price) in the following languages: Croatian, Italian, German and English. The cave is well-lit and equipped, the paths and stairways have firm railing, with regards to temperature (about **+14 ° C**) and the number of steps (270), use of appropriate clothing and footwear is recommended.
An interesting detail of this adventurous trip is also the encounter with the underground world of animals: visitors will see the **cave olm** (Proteus anguinus), endemic of the Dinaric karst area.

Additional: in the immediate vicinity of the Baredine cave we recommend:

- a educative geological pillar with surface sediments of Istria
- a Speleo gallery with a thematic exhibition of photos and exhibits on karst, speleology, paleontology, archeology and cave art.
- a speleo-climbing centre – Speleolit

Next to the cave are also: free parking lot (for cars and busses), reception, coffee bar/buffet, souvenirs shop, spacious playground for children, area with domesticated animals, picnic area

Notes:

- Prior announcement for **individual visits** during working hours in not required. Along with a visit to the Baredine cave individual visitors receive discount for a visit to the Traktor story
- **Group visits** need to be announced at least one day in advance. Visits can be arranged outside of the aforementioned opening hours
- During the winter period (1st November – 31st March) reservations for group visits need to be announced by phone as well.

TRAKTOR STORY

Traktor Story

The area known as the yesteryear meeting place and intersection of communication routes situated near the natural landmark, the Baredine Cave, showcases the ethno story dedicated to agriculture. The display of objects, machines and numerous preserved photographs and documents narrates the history of the area and its people.

First and foremost, the exhibition presents the evolution of the threshing process, immediately before and after the mechanisation of farming. The story begins on the threshing floor, one of the earliest forms of threshing, continuing with the presentation of simple to more complex threshing machines, combine harvesters and tractors that substantially facilitated the arduous working process.

Around fifty old timer tractors and machines are exhibited in the state in which they were last used. With no later modifications to its original state, each individual tractor, starting with a 1923 Fordson, the first one to have arrived to the nearby village, has a story to tell about the area. In their honour this exhibition is named Traktor story.

Konobon Gallery

The exclusive space of Konobon Gallery blending into the white Istrian stone showcases the story of the Mediterranean trilogy - bread, olive oil and wine, present in this area from antiquity, through the Middle Ages, to the present day. The central part of the gallery is dedicated to staging art and thematic exhibitions.

Notes:

• **Individual visits** of Traktor story are organized according to the aforementioned schedule. Multilingual descriptions on over 300 exhibits allow you to visit the exhibition on your own. It lasts for about 50 minutes. Along with a visit to Traktor Story individual visitors receive a discount for a visit to the Baredine cave. Prior announcement for individual visits during working hours in not required.

• **Groups** (min. 20 people) enter together with our guide (included in price) and the available languages are Croatian, Italian, German and English. Group visits need to be announced at least one day in advance. Visits can be arranged outside of the aforementioned opening hours. During the winter period (1st November – 31st March) reservations for group visits need to be announced in advance via phone. For companions of the groups – professors the entrance is free of charge (on ca. 10 persons 1 companion free of charge).

SPELEOLIT

Speleolit is a polygon for speleo-climbing where you can try the technique of rope climbing (Speleo - climbing) and discover the underworld (Speleo-Adventure) . Speleolit is the ideal place for young people and for those who are adventurous. peleolit was built in 2003 and has met all safety regulations since day one. The Speleo adventure guide is a qualified speleologist with more than 20 years of experience in speleology.

SPELEO CLIMBING

is intended for larger groups of people (schools, teambuilding, etc.), but also for individuals who want to try climbing techniques on an outdoor rock at the polygon.

Opening times: Daily from 10h with prior announcement required
